

MBS ITEM NUMBERS

Supporting patients with intellectual disability

This document aims to provide General Practitioners (GPs) and primary health professionals with a quick reference to relevant Medicare Benefits Scheme (MBS) items to support patients with an intellectual disability.

Disclaimer: Western Victoria Primary Health Network are not responsible for ensuring that references to MBS item numbers are up-to-date. Please refer to the [Department of Health and Aged Care MBS Online](#) for full description of item numbers and up-to-date information. It is important to have accurate billing and cover off on all elements within the MBS descriptors to ensure compliance.

Note: There were some new MBS items introduced as of [1 November 2023](#) and [1 March 2024](#).

Internal

91872	Telehealth attendance by a consultant physician in the practice of the consultant physician's specialty of psychiatry following referral of the patient to the consultant physician by a referring practitioner—an attendance of more than 75 minutes in duration, if that attendance and another attendance to which item 296, 297, 299, 92437 or any of items 300, 302, 304, 306, 308, 91827, 91828, 91829, 91830, 91831, 91837, 91838, 91839, 91868, 91869, 91870, 91871, 91873, or 91879 to 91881 applies exceed 50 attendances in a calendar year for the patient	
91879	Phone attendance by a consultant physician in the practice of the consultant physician's specialty of psychiatry following referral of the patient to the consultant physician by a referring practitioner—an attendance of not more than 15 minutes in duration, if that attendance and another attendance to which 296, 297, 299 or any of items 300, 302, 304, 306, 308, 91827 to 91831, 91837 to 91839, 91868 to 91873, 91880, 91881 or 92437 applies exceed 50 attendances in a calendar year for the patient	
91880	Phone attendance by a consultant physician in the practice of the consultant physician's specialty of psychiatry following referral of the patient to the consultant physician by a referring practitioner—an attendance of more than 15 minutes but not more than 30 minutes in duration, if that attendance and another attendance to which item 296, 297, 299 or any of items 300, 302, 304, 306, 308, 91827 to 91831, 91837 to 91839, 91868 to 91873, 91879, 91881 or 92437 applies exceed 50 attendances in a calendar year for the patient	
91881	Phone attendance by a consultant physician in the practice of the consultant physician's specialty of psychiatry following referral of the patient to the consultant physician by a referring practitioner—an attendance of more than 30 minutes but not more than 45 minutes in duration, if that attendance and another attendance to which item 296, 297, 299 or any of items 300, 302, 304, 306, 308, 91827 to 91831, 91837 to 91839, 91868 to 91873, 91879, 91880 or 92437 applies exceed 50 attendances in a calendar year for the patient	
346	Group psychotherapy (including any associated consultations with a patient taking place on the same occasion and relating to the condition for which group therapy is conducted) of not less than 1 hour in duration given under the continuous direct supervision of a consultant physician in the practice of the consultant physician's specialty of psychiatry, involving a family group of 2 patients, each of whom is referred to the consultant physician by a referring practitioner-each patient	
14224	Electroconvulsive therapy, with or without the use of stimulus dosing techniques, including any electroencephalographic monitoring and associated consultation (H) (Anaes.)	
Eating Disorders Treatment and Management Plans		
90260	Psychiatry specialist (consultant physician) preparation of an eating disorder treatment and management plan At least 45 minutes	
90261	Paediatric specialist (consultant physician) preparation of an eating disorder treatment and management plan At least 45 minutes	

Allied Health Professionals

(including speech pathology, occupational therapy, audiology, optometry, orthoptic or physiotherapy services)

MBS Item Number	Item name – Short Description	Frequency
Allied health service delivery (autism, pervasive developmental disorder or disability)		
82000	Psychology health service for patient under 13 years At least 50 mins	These items are limited to a maximum of four services per patient, consisting of any combination of the following items – 82000, 82005, 82010 and 82030
82005	Speech pathology health service for patient under 13 years At least 50 mins	
82010	Occupational therapy health service for patient under 13 years At least 50 mins	
82030	Audiology, optometry, orthoptic or physiotherapy health service for patient under 13 years At least 50 mins	
82015	Psychology health service for patient under 15 years At least 30 mins	These items are limited to a maximum of 20 services per patient, consisting of any combination of items – 82015, 82020, 82025 and 82035
82020	Speech pathology health service for patient under 15 years At least 30 mins	
82025	Occupational therapy health service for patient under 15 years At least 30 mins	
82035	Audiology, optometry, orthoptic or physiotherapy health service for patient under 15 years At least 30 mins	
Case conferencing		
82001	Case conference attendance by allied health practitioner (autism, pervasive developmental disorder and disability case conference services) 15-20 mins	
82002	Case conference attendance by allied health practitioner (autism, pervasive developmental disorder and disability case conference services) 20-40 mins	
82003	Case conference attendance by allied health practitioner (autism, pervasive developmental disorder and disability case conference services) 40 mins or more

Individual allied health services (patients being managed under chronic disease management items may be eligible)		
10953	Exercise physiology service provided to a person by an eligible exercise physiologist (see link for full eligibility details)	
10954	Dietetics health service provided to a person by an eligible dietician (see link for full eligibility details)	
10956	Mental health service provided to a person by an eligible mental health worker (see link for full eligibility details)	
10958	Occupational therapy health service provided to a person by an eligible occupational therapist (see link for full eligibility details)	
10960	Physiotherapy health service provided to a person by an eligible physiotherapist (see link for full eligibility details)	
10962	Podiatry health service provided to a person by an eligible podiatrist (see link for full eligibility details)	
10964	Chiropractic health service provided to a person by an eligible chiropractor (see link for full eligibility details)	
10966	Osteopathy health service provided to a person by an eligible osteopath (see link for full eligibility details)	
10968	Psychology health service provided to a person by an eligible psychologist (see link for full eligibility details)	
10970	Speech pathology health service provided to a person by an eligible speech pathologist (see link for full eligibility details)	

Additional MBS item numbers relating to intellectual disability and disability

MBS Item Number	Item name – Short Description	Frequency
Pre-anaesthesia Consultations by an Anaesthetist		
17610	Pre-anaesthesia Consultation <15 mins	
17615	Pre-anaesthesia Consultation 15-30 mins	
17620	Pre-anaesthesia Consultation 30-45 mins	
17625	Pre-anaesthesia Consultation 45 mins or more	
Pathology services		
73358	Intellectual disability or global developmental delay Characterisation, via whole exome or genome sequencing and analysis, of germline variants known to cause monogenic disorders	Once
73359	Intellectual disability or global developmental delay Characterisation, via whole exome or genome sequencing and analysis, of germline variants known to cause monogenic disorders	Once
73291	Analysis of one or more chromosome regions for specific constitutional genetic abnormalities of blood or fresh tissue, including in diagnostic studies of a person with intellectual disability	One or more tests
73292	Analysis of chromosomes by genome-wide micro-array including targeted assessment of specific regions for constitutional genetic abnormalities in diagnostic studies of a person with developmental delay, intellectual disability, autism, or at least two congenital abnormalities	One or more tests
73300	Detection of mutation of the FMR1 gene where the patient exhibits intellectual disability	One or more tests
Diagnostic procedures and investigations (Neurology)		
11000	Electroencephalography	
Neurosurgery		
40850	Deep brain stimulation (unilateral) procedure	
40851	Deep brain stimulation (bilateral) procedure	
40852	Deep brain stimulation (unilateral) subcutaneous placement of neurostimulator receiver or pulse generator	
40854	Deep brain stimulation (unilateral) revision or removal of brain electrode	
40856	Deep brain stimulation (unilateral) removal or replacement of neurostimulator receiver or pulse generator	
40858	Deep brain stimulation (unilateral) placement, removal or replacement of extension lead	

Internal

MBS Item Number	Item name – Short Description	Frequency
Neurosurgery		
40860	Deep brain stimulation (unilateral) target localisation incorporating anatomical and physiological techniques, including intra-operative clinical evaluation, for the insertion of a single neurostimulation wire	
40862	Deep brain stimulation (unilateral) electronic analysis and programming of neurostimulator pulse generator	
40863	Deep brain stimulation (unilateral) remote electronic analysis and programming of neurostimulator pulse generator	
Investigations for sleep disorders		
12203	Overnight diagnostic assessment of sleep, for at least 8 hours, for a patient aged 18 years or more, to confirm diagnosis of a sleep disorder	Applicable only once in any 12 month period
12204	Overnight assessment of positive airway pressure, for at least 8 hours, for a patient aged 18 years or more	Applicable only once in any 12 month period
12205	Follow-up study for a patient aged 18 years or more with a sleep-related breathing disorder, following professional attendance on the patient by a qualified adult sleep medicine practitioner or consultant respiratory physician (either face-to-face or by video conference)	Applicable only once in any 12 month period
12207	Overnight investigation, for a patient aged 18 years or more, for a sleep-related breathing disorder, following professional attendance by a qualified adult sleep medicine practitioner or a consultant respiratory physician (either face-to-face or by video conference)	Applicable only once in any 12 month period
12208	Overnight investigation, for sleep apnoea for at least 8 hours, for a patient aged 18 years or more	Applicable only once in any 12 month period
12210	Overnight paediatric investigation, for at least 8 hours, for a patient less than 12 years of age	For each particular patient— applicable only in relation to each of the first 3 occasions the investigation is performed in any 12 month period
12213	Overnight paediatric investigation, for at least 8 hours, for a patient aged at least 12 years but less than 18 years	For each particular patient— applicable only in relation to each of the first 3 occasions the investigation is performed in any 12 month period

Internal

MBS Item Number	Item name – Short Description	Frequency
Investigations for sleep disorders		
12215	Overnight paediatric investigation, for at least 8 hours, for a patient less than 12 years of age	Applicable only once in the same 12 month period to which item 12210 applies
12217	Overnight paediatric investigation, for at least 8 hours, for a patient aged at least 12 years but less than 18 years	Applicable only once in the same 12 month period to which item 12213 applies
12250	Overnight investigation of sleep for at least 8 hours of a patient aged 18 years or more to confirm diagnosis of obstructive sleep apnoea	Applicable only once in any 12 month period
