

POLAR WALKTHROUGH

Identifying patients 70 years and over that have not received a Pneumococcal Vaccination

Instructions	Screen Shot																				
<p>Login to POLAR, and navigate to 'Reports',</p> <p>selecting the 'Clinic Summary'</p>	 <p>The screenshot shows the POLAR Reports interface. The 'Reports' menu is highlighted. Below the navigation bar, there is a section for 'Walrus for BP and MD' with a 'Download Walrus' button. To the right, a 'Clinic Summary Demo' card is visible, featuring a stethoscope icon and the text 'Demo for clinics, including clinical indicators'.</p>																				
<p>In this report, you can choose to include patients with certain activities or filters, and exclude patients with certain activities or filters.</p> <p>Firstly select 'Clinical Indicators' from the 'Clinical' drop-down.</p> <p>On the following page, select 'Active' under 'Patient Status' in the 'Inclusion Filters' table.</p>	 <p>The left screenshot shows the 'Clinical' dropdown menu open, with 'Clinical Indicators' selected. The right screenshot shows the 'Patient Status' filter dropdown menu, with 'Active' selected.</p> <p>Below the screenshots, there are two bar charts. The first chart, titled 'Risk Categories for HARP', shows the following data:</p> <table border="1"> <thead> <tr> <th>Risk Category</th> <th>Count</th> </tr> </thead> <tbody> <tr> <td>Urgent</td> <td>1,119</td> </tr> <tr> <td>High</td> <td>422</td> </tr> <tr> <td>Medium</td> <td>1,482</td> </tr> <tr> <td>Low</td> <td>7,076</td> </tr> </tbody> </table> <p>The second chart, titled 'Risk Categories for HARP', shows the following data:</p> <table border="1"> <thead> <tr> <th>Risk Category</th> <th>Count</th> </tr> </thead> <tbody> <tr> <td>Urgent</td> <td>1,119</td> </tr> <tr> <td>High</td> <td>422</td> </tr> <tr> <td>Medium</td> <td>1,482</td> </tr> <tr> <td>Low</td> <td>7,076</td> </tr> </tbody> </table>	Risk Category	Count	Urgent	1,119	High	422	Medium	1,482	Low	7,076	Risk Category	Count	Urgent	1,119	High	422	Medium	1,482	Low	7,076
Risk Category	Count																				
Urgent	1,119																				
High	422																				
Medium	1,482																				
Low	7,076																				
Risk Category	Count																				
Urgent	1,119																				
High	422																				
Medium	1,482																				
Low	7,076																				

In the 'Age Band' column, select all that apply to 70 years and over, and remember to select the green tick.

NOTE: To set the upper age limit, select age groups as required.

See image 2, 'Patient Age' can also be selected individually in the scroll down menu on left of screen in the POLAR 'Clinic Summary - Dashboard' under 'Patient' and then 'Patient Age'.

Clinic Summary – Dashboard:

>Left scroll down menu

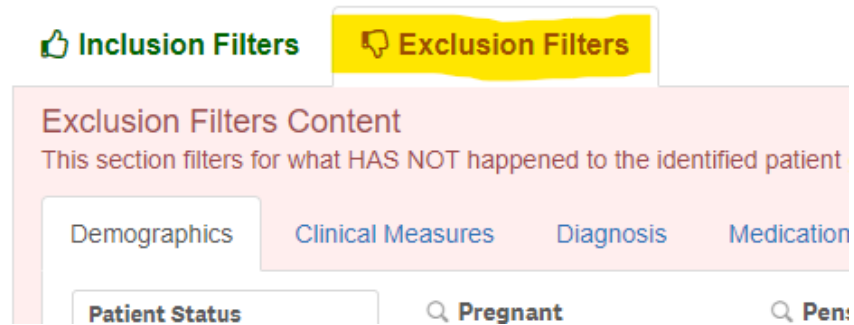

>Patient

>Patient Age

>Select Ages as required

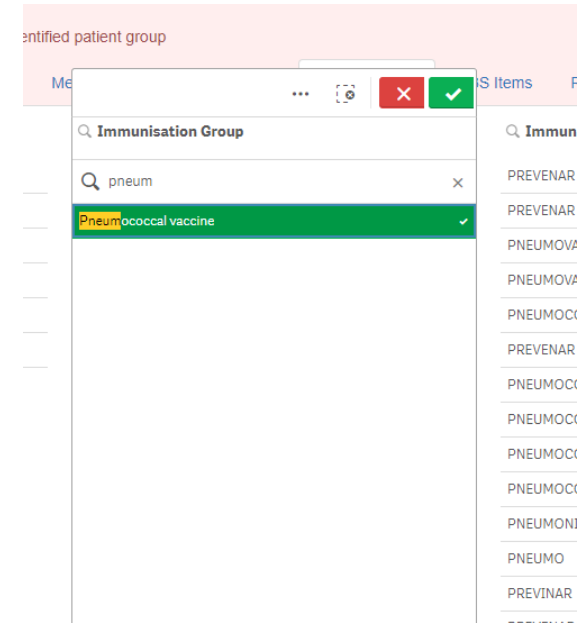

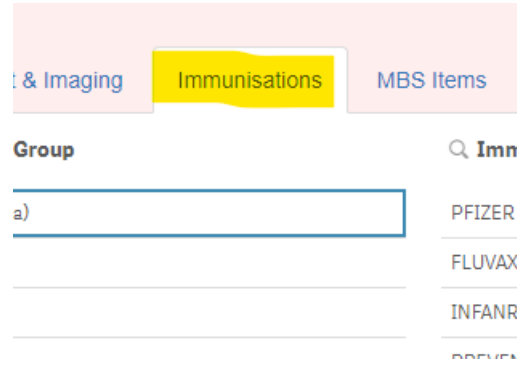

Now select 'Exclusion Filters' to change to the excluding filter table.

Select the 'Immunisations' tab in the 'Exclusion Filters' table.

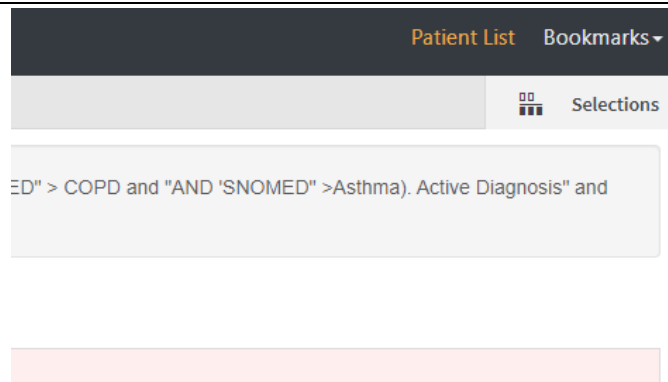

In the 'Immunisation Group' column, begin typing Pneumococcal until 'Pneumococcal Vaccine' shows in the list. Select the option and click the green tick.

This concludes the filters for those 70 years and over that have not received the Pneumococcal Vaccine.

To view the patient list, select 'Patient List' in the top right of screen.

To then export that list, select 'Export to Excel' to filter as required.

PATIENT LIST

Patient ID	First Name
2601	Noelle

For further support or training on POLAR, or this specific patient list please reach out to the Digital Health team at WVPHN.
