

POLAR WALKTHROUGH

Identifying RACGP active patients aged under 25 years, who have diabetes and are eligible for a careplan

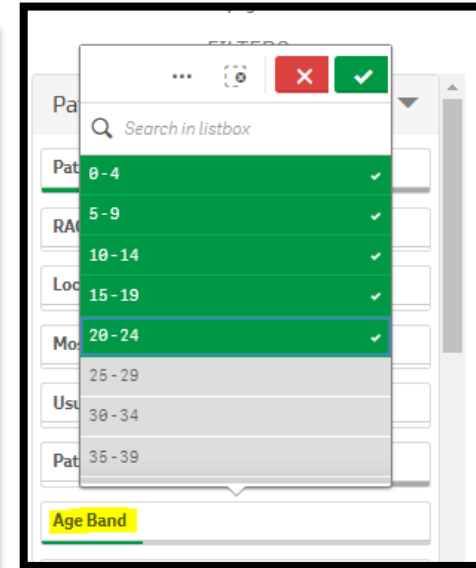

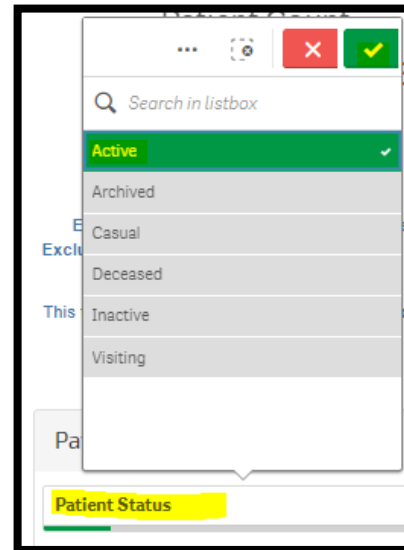

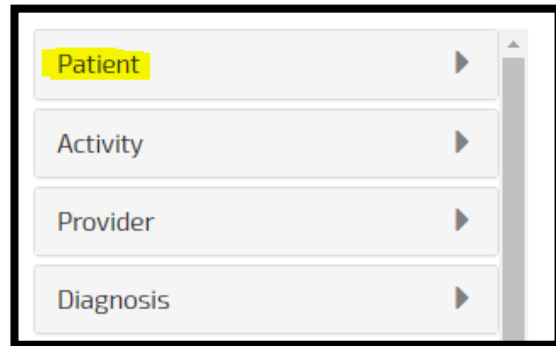

This activity guides practices to identify RACGP active patients (have attended the clinic at least three times in the last 2 years), who have at least one chronic condition, and are eligible for a medication review.

Instructions	Screen Shot
<p>Login to POLAR, and navigate to 'Reports',</p> <p>selecting the 'Clinic Summary'</p>	

Internal

Under the 'Filters' on the left,

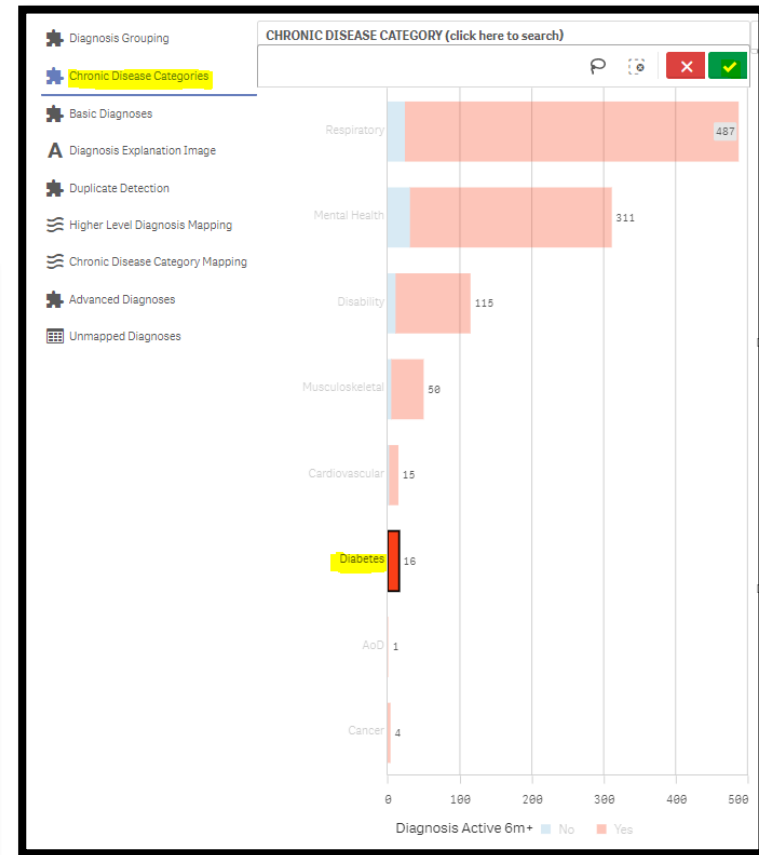

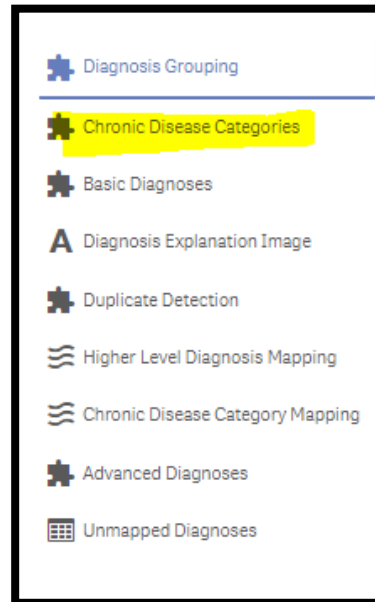

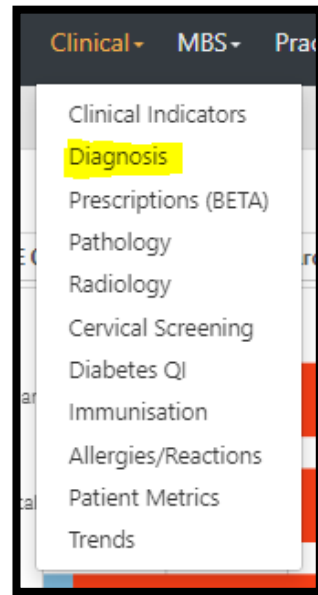

- click 'Patient',
- select 'Active' under Patient Status, and give it a green tick.
- Select all aged bands under 25 under 'Age Band', and give it a green tick

Internal

To identify patients with a diagnosis of diabetes, hover over the 'Clinical' on the top bar, and select 'Diagnosis'

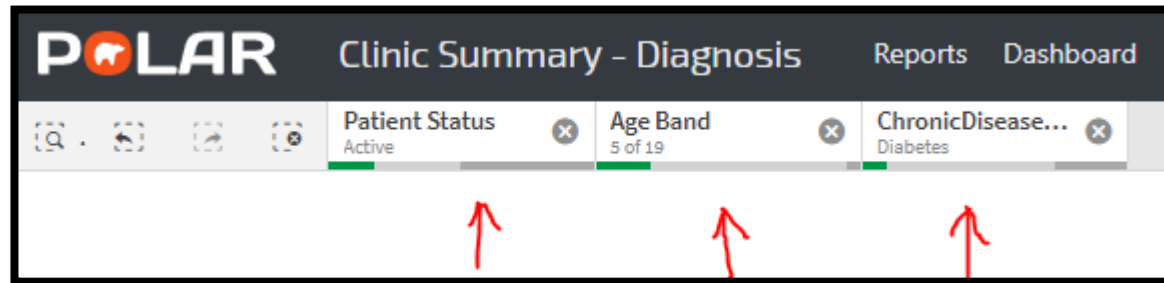

Then select 'Chronic Disease Categories' on the left side, to enable you to select 'Diabetes', and give it a green tick.

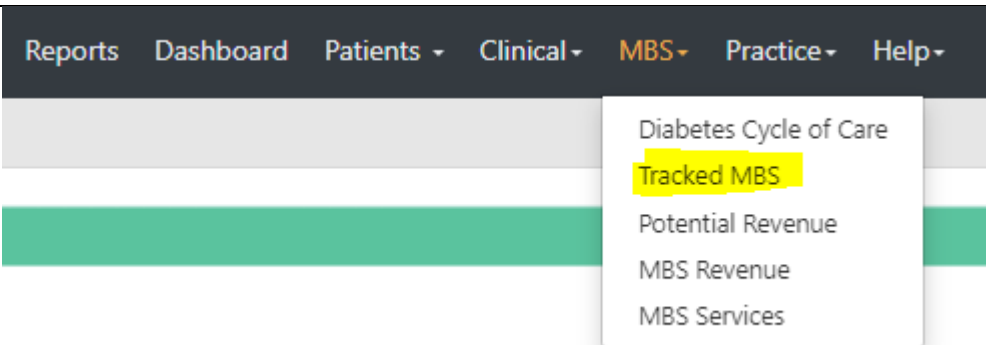

Internal

You can confirm your filters have been added, by checking the filter bar across the top of the page

– you should see three filters (Patient status active, Age Band, Chronic Disease – Diabetes)

Now navigate to the MBS Tracked report, by hovering over 'MBS' across the top, and select 'Tracked MBS' report.

Internal

At the top of this report, you can ensure that 'GPMP' is the selected focus (or TCA) and the rest of the report will be on this topic.

Patient Count

17¹⁷
Active

(Excluded Patients: 0)

Excluded patients are those defined by the the exclusion filters. These patients are excluded from the patient count.

This functionality is available on the Clinical Indicators page.
