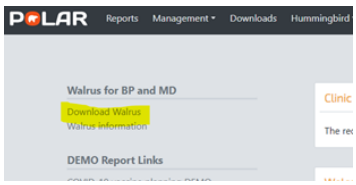
INSTALLING WALRUS

POLAR Walkthrough

phn WESTERN VICTORIA
An Australian Government Initiative

St ep 1

Login to POLAR home page and select **‘Download Walrus’**.

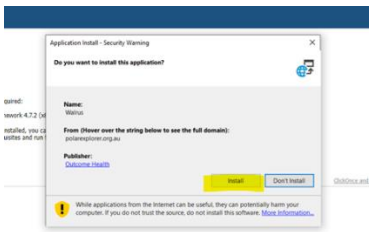


Step 2

In the **‘Walrus’** pop-up, select **‘Install’**.

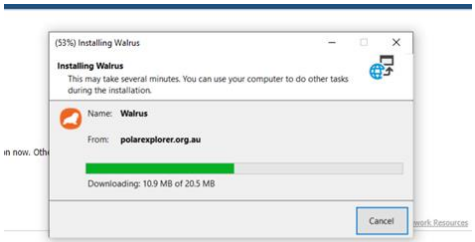
Step 3

A new window will appear, select **‘Install’**.



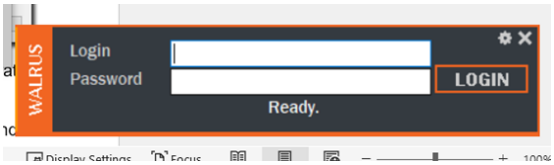
Step 4

Open and download the Walrus file, Walrus will start to install.



Step 5

Walrus login window will appear. Login with your usual POALR login details.



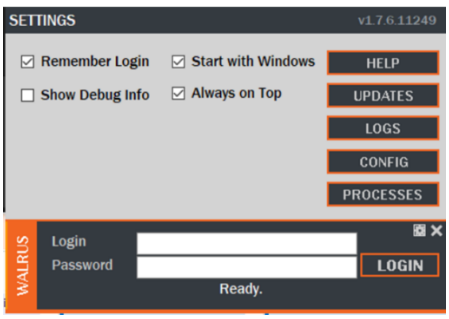
Configuring Walrus

To configure Walrus settings, select the ‘**cog**’ on the Walrus login window.

Recommended options to select:

- **Remember Login**
- **Start with Windows** – you won’t have to manually open Walrus each time your computer is started.

Always on top – to ensure Walrus is easily viewed when patient file is open.



Support

For further support or training on POLAR or Walrus please reach out to digitalhealth@westvicphn.com.au.
